

New Cat[®] 657G Wheel Tractor Scraper Model Introduced by Norscot

A new 1:50 scale model of the Cat[®] 657G Wheel Tractor Scraper replicates the largest open bowl Caterpillar[®] scraper and boasts extensive detail while showing off the new Power Edge[™] trade dress design.

The real Cat 657G is equipped for a push-pull arrangement that maximizes power and efficiency while allowing two machines to function as a self-loading system. Collectors may want to buy two of the scale models to replicate this arrangement.

Other features of the model include:

- Tandem engine scraper
- Drop-down scraper bowl
- Operating ejector
- Apron moves up and down
- Rolling wheels and tires with actual tread design
- Clear windows with interior cabin detail

“Our Cat 657G scraper is another excellent example of the models from Norscot that, while popularly priced, offer features and detail normally associated with collector’s edition replicas,” said Scott Stern, Norscot’s president and chief executive officer. “This model is particularly impressive given its large size.”

Item Number 55175 is 13-1/4 inches long, 3-1/4 inches wide and 3-1/2 inches high (33.66 x 8.26 x 8.89 cm).

Caterpillar models made by Norscot are available at participating Cat dealers and at retailers throughout the world.
